Web	mishrickymedical.com
Address	Suite 11, Level 1, 325–327 Edward Street, Wagga Wagga NSW 2650 (within the Wagga Wagga Specialist Medical Centre)

1. About the Practice

Mishricky Medical is a modern, established family practice operating from consulting rooms within the Wagga Wagga Specialist Medical Centre. Building on a heritage of family general practice in Wagga Wagga first established in 2004, the practice now operates as Mishricky Medical at Suite 11, Level 1, 325–327 Edward Street. Our objective is to provide high-quality, comprehensive health care based on the standards set by the Royal Australian College of General Practitioners (RACGP) and the Australian Medical Association (AMA).

2. Appointments

Making an appointment is easy. You can book online at any time at **mishrickymedical.com**, or ring **(02) 6971 7878** and our friendly staff will do their best to accommodate your preferred time. Where that is not possible, we will find you the best alternative. No-one has to wait more than three days for an appointment with any particular doctor. There are usually two doctors available on any given day, so if your preferred doctor is fully booked, another doctor will be available to see you. If you feel you need a longer consultation, please mention this when booking.

3. After Hours & Emergencies

In an emergency, dial 000 or attend the Emergency Department at Wagga Wagga Base Hospital.

For accidents and other urgent situations during practice hours, always telephone the surgery first and you will be advised of the appropriate action.

4. Fees

We are **not a bulk-billing practice**, and full payment is expected at the time of consultation. We have access to online Medicare claiming for your convenience, so any rebate you are entitled to can be returned to you promptly.

Standard consultation — \$85 total. This is made up of a **\$44** Medicare rebate and a **\$41** gap (out-of-pocket) payment. The rebate can be claimed back to you electronically at the time of consultation.

5. Telephone Calls to Doctors

Telephone calls may interrupt consultations and inconvenience other patients. Our reception staff are happy to take a message and ask the doctor to return your call at a convenient time. It is not possible to make a diagnosis over the phone. If your call concerns an urgent medical situation, please tell the receptionist and you will be put through to the doctor concerned.

6. Medical Certificates

A medical certificate is a legal document and is treated as such. If a certificate is required, you must be seen by a doctor.

7. Home Visits

The policy of this practice is to provide medical services within the surgery, which means home visits are usually kept to a minimum. However, a home visit may be arranged following prior consultation with your doctor and at the doctor's discretion. Please ask our reception staff about any fees that may apply.

8. Referral Policy

Under the Medicare arrangements, a referral to a specialist can only be given after due consideration by the treating practitioner. This requires you to attend the practice in person before seeing the specialist. Referrals cannot be backdated.

9. Repeat Prescriptions

Repeat prescriptions will not normally be issued by telephone without seeing the patient, although individual cases will be decided by the attending doctor. Please book an appointment in good time before your medication runs out.

10. Test Results

Test results may be handled in a number of ways:

- Your doctor may ask you to make a further appointment to discuss your results, as there may be complex issues involved.
- Your doctor may ask you to ring the practice for your results. Our reception staff will only have a simple message to relay to you; out of respect for your confidentiality, they cannot access the contents of your file, so please do not ask them for clinical details. If you would like to discuss your results, please make an appointment with your doctor.

11. Reminders & Recalls

This practice operates a reminder system for preventive health care — for example cervical screening, cholesterol checks, breast checks, blood pressure monitoring, annual diabetes reviews, aged

health assessments and medication reviews. From time to time you may be sent a reminder for a check-up. Please let our staff know if you would prefer not to be included in the reminder system.

12. Sterilisation of Instruments

All needles and surgical instruments used in our practice are either single-use disposable items or are sterilised on-site for each and every patient.

13. Personal Health Information & Privacy

Your privacy matters. Your details, medical records and consultations at this practice are kept strictly confidential. Your personal health information is only accessed by authorised staff and will not be released without your written consent.

During the accreditation process, a small number of medical records may be randomly selected by a GP for quality-assurance purposes. If you do not wish for your personal record to be accessed in this way, please tell your doctor. In keeping with privacy legislation, phone messages will not be left on answering machines or passed on to anyone else without your prior consent.

14. Your Rights

We constantly strive to give you the best possible care and attention, and we take your concerns, suggestions and complaints seriously. If you have a suggestion about any aspect of our service, please ask to speak with the Practice Manager, who will be happy to listen, or you may prefer to write to us. If you feel you need to take a matter further outside the practice, options include the Medical Board of Australia (AHPRA), the AMA, or the Health Care Complaints Commission, telephone (02) 9219 7444.
